

## Lesson plan 1 on 'WINDOW ON THE WORLD'

Key stage 3

Time 30 minutes individual or paired work on the PC

Name \_\_\_\_\_

Go to **Launch Pad**

Go to **Planet Earth**

Go to **'Tree'** - investigating the biosphere

Using your world map copy out the tropical rainforest areas

**Answer the following questions with full sentences?**

1. Name 3 other ecosystems covering the earth

2. What interacts within the ecosystems?

3. What is the living part of the ecosystem called?

4. What is another name for a food chain?

5. Energy from the sun is converted into what?

6. Which would be a primary producer (circle one): grass, cows, soil, man

7. Which would be a secondary producer (circle one): tulips, sheep, rocks, cars

8. Decomposers return what to the soil?

Go to the **map of Africa** - Vegetation change in Africa

Read the writing.

Make up **four** questions based on the text for someone else in your class to answer (tip: make the questions like the ones given to you above). Write the questions overleaf.

**Look at another area of the CD and say why it is of interest to you.**
