Shops and Shopping in Winchester

Name:_____ Date; _____ Time:_____

Pedestrian Count **WINCHESTER HIGH STREET**

At your given location, record the location on the recording sheet, then stand with your back to a shop front, window or wall. At the start of the count, note the date and time of your survey and during the next 10 minutes, if a pedestrian passes an imaginary line in front of you (in either direction), note down one stroke on the tally chart. Stop after 10 minutes. Later you can count up the total number of people and mark it in the total box.

Pedestrian recording sheet - Pedestrian Count results (tally) **location:**
pedestrians
total pedestrians at this site =
total pedestrians at all sites =
